# Mark scheme · 4.2 Odd One Out: 2-hour Pack

## Question 1

selects option C: the other four figures all have the same orientation (turned 315 degrees clockwise from upright) and are all solid black; this figure breaks the rule that the figures are all solid black (cao) **B1**

**Answer: C) A large dotted star with one point facing up-left**

## Question 2

selects option D: the other four figures each have a small shape in the bottom-right corner and are all medium and are all solid black; this figure breaks the rule that the figures are all solid black (cao) **B1**

**Answer: D) A medium dotted hexagon and a small solid black square in the bottom-right (upright, the hexagon has its flat top and bottom)**

## Question 3

selects option A: the other four figures each have a smaller copy of their own shape inside and are all unshaded (white); this figure breaks the rule that the figures each have a smaller copy of their own shape inside (cao) **B1**

**Answer: A) A medium unshaded (white) circle, with a small solid black hexagon centred inside it (upright, the hexagon has its flat top and bottom)**

## Question 4

selects option A: the other four figures each have a small shape in the bottom-right corner and all have the same orientation (turned 225 degrees clockwise from upright); this figure breaks the rule that the figures each have a small shape in the bottom-right corner (cao) **B1**

**Answer: A) A large unshaded (white) flag (turned 225 degrees clockwise) and a small solid black circle in the bottom-left (upright, the flag has its pole on the left, pennant pointing right from the top)**

## Question 5

selects option C: the other four figures each have a small square in one corner and are all unshaded (white); this figure breaks the rule that the figures are all unshaded (white) (cao) **B1**

**Answer: C) A large mid-grey arrow pointing up and a small solid black square in the bottom-left**

## Question 6

selects option D: the other four figures are all large and all have the same orientation (turned 0 degrees clockwise from upright) and each have a small shape in the top-right corner; this figure breaks the rule that the figures each have a small shape in the top-right corner (cao) **B1**

**Answer: D) A large cross-hatched L-shape and a small solid black triangle with one point facing up in the bottom-left (upright, the L-shape has its tall arm on the left, foot pointing right along the bottom)**

## Question 7

selects option C: the only rectangle containing 5 internal lines instead of 4 (cao) **B1**

**Answer: C**

## Question 8

selects option B: the other four figures all have the same orientation (turned 135 degrees clockwise from upright) and each have a small square in one corner and each have a small shape in the bottom-left corner; this figure breaks the rule that the figures each have a small shape in the bottom-left corner (cao) **B1**

**Answer: B) A medium cross-hatched pentagon with one point facing down-right and a small solid black square in the top-left**

## Question 9

selects option E: the other four figures each have a smaller shape of a different kind inside and are all hexagons; this figure breaks the rule that the figures are all hexagons (cao) **B1**

**Answer: E) A large cross-hatched circle, with a small solid black hexagon centred inside it (upright, the hexagon has its flat top and bottom)**

## Question 10

selects option B: the other four figures each have a small shape in the bottom-left corner and are all large; this figure breaks the rule that the figures are all large (cao) **B1**

**Answer: B) A medium diagonally hatched diamond and a small solid black square in the bottom-left**

## Question 11

selects option D: the other four figures are all diagonally hatched and each have a small shape in the top-left corner and are all large; this figure breaks the rule that the figures are all diagonally hatched (cao) **B1**

**Answer: D) A large unshaded (white) triangle with one point facing up and a small solid black triangle with one point facing up in the top-left**

## Question 12

selects option A: the other four figures all have the same orientation (turned 225 degrees clockwise from upright) and each have a small shape in the bottom-right corner; this figure breaks the rule that the figures all have the same orientation (turned 225 degrees clockwise from upright) (cao) **B1**

**Answer: A) A large solid black crescent with its tips facing down and a small solid black circle in the bottom-right**

## Question 13

selects option C: the other four figures are all crescents and all have the same orientation (turned 315 degrees clockwise from upright) and each have a small circle in one corner; this figure breaks the rule that the figures each have a small circle in one corner (cao) **B1**

**Answer: C) A small solid black crescent with its tips facing up-left and a small solid black triangle with one point facing up in the top-left**

© Revision Library | revisionlibrary.co.uk

## Question 14

selects option A: the other four figures all have the same orientation (turned 225 degrees clockwise from upright) and are all arrows; this figure breaks the rule that the figures all have the same orientation (turned 225 degrees clockwise from upright) (cao) **B1**

**Answer: A) A large diagonally hatched arrow pointing down-right**

## Question 15

selects option C: the other four figures each have a smaller shape of a different kind inside and are all squares and are all mid-grey; this figure breaks the rule that the figures are all squares (cao) **B1**

**Answer: C) A small mid-grey pentagon with one point facing up, with a small solid black circle centred inside it**

## Question 16

selects option D: the other four figures all have the same orientation (turned 45 degrees clockwise from upright) and each have a small shape in the top-right corner; this figure breaks the rule that the figures each have a small shape in the top-right corner (cao) **B1**

**Answer: D) A medium dotted semicircle with its curved side facing up-right and a small solid black triangle with one point facing up in the bottom-left**

## Question 17

selects option E: the other four figures all have the same orientation (turned 90 degrees clockwise from upright) and are all medium and are all mid-grey; this figure breaks the rule that the figures are all mid-grey (cao) **B1**

**Answer: E) A medium diagonally hatched L-shape (turned 90 degrees clockwise) (upright, the L-shape has its tall arm on the left, foot pointing right along the bottom)**

## Question 18

selects option A: the other four figures each have a small square in one corner and are all right-angled triangles; this figure breaks the rule that the figures are all right-angled triangles (cao) **B1**

**Answer: A) A large mid-grey semicircle with its curved side facing up and a small solid black square in the bottom-right**

## Question 19

selects option C: the other four figures all have the same orientation (turned 90 degrees clockwise from upright) and each have a small star in one corner; this figure breaks the rule that the figures each have a small star in one corner (cao) **B1**

**Answer: C) A large diagonally hatched pentagon with one point facing right and a small solid black square in the top-left**

## Question 20

selects option D: the other four figures each have a small shape in the bottom-left corner and are all pentagons; this figure breaks the rule that the figures each have a small shape in the bottom-left corner (cao) **B1**

**Answer: D) A small unshaded (white) pentagon with one point facing up and a small solid black triangle with one point facing up in the top-right**

## Question 21

selects option D: the only square divided by diagonals (an X) instead of by a horizontal-and-vertical grid (cao) **B1**

**Answer: D**

## Question 22

selects option E: the other four figures each have a small circle in one corner and are all unshaded (white); this figure breaks the rule that the figures each have a small circle in one corner (cao) **B1**

**Answer: E) A large unshaded (white) hexagon and a small solid black star with one point facing up in the bottom-left (upright, the hexagon has its flat top and bottom)**

## Question 23

selects option C: the other four figures each have a smaller copy of their own shape inside; this figure breaks the rule that the figures each have a smaller copy of their own shape inside (cao) **B1**

**Answer: C) A small solid black square, with a small unshaded (white) pentagon with one point facing up centred inside it**

## Question 24

selects option A: the other four figures are all medium and each have a small star in one corner and all have the same orientation (turned 315 degrees clockwise from upright); this figure breaks the rule that the figures each have a small star in one corner (cao) **B1**

**Answer: A) A medium diagonally hatched flag (turned 315 degrees clockwise) and a small solid black square in the top-left (upright, the flag has its pole on the left, pennant pointing right from the top)**

## Question 25

selects option D: the other four figures are all rectangles and each have a small shape in the top-left corner; this figure breaks the rule that the figures each have a small shape in the top-left corner (cao) **B1**

**Answer: D) A medium dotted rectangle and a small solid black circle in the bottom-left (upright, the rectangle has its long sides horizontal)**

## Question 26

selects option B: the other four figures are all L-shapes; this figure breaks the rule that the figures are all L-shapes (cao) **B1**

**Answer: B) A large diagonally hatched triangle with one point facing up**

## Question 27

selects option B: the other four figures each have a small circle in one corner and are all medium and all have the same orientation (turned 0 degrees clockwise from upright); this figure breaks the rule that the figures all have the same orientation (turned 0 degrees clockwise from upright) (cao) **B1**

**Answer: B) A medium cross-hatched semicircle with its curved side facing down and a small solid black circle in the top-left**

© Revision Library | revisionlibrary.co.uk

## Question 28

selects option C: the other four figures each have a small triangle in one corner and all have the same orientation (turned 0 degrees clockwise from upright); this figure breaks the rule that the figures each have a small triangle in one corner (cao) **B1**

**Answer: C) A medium mid-grey arrow pointing up and a small solid black square in the bottom-right**

## Question 29

selects option A: the other four figures each have a smaller copy of their own shape inside; this figure breaks the rule that the figures each have a smaller copy of their own shape inside (cao) **B1**

**Answer: A) A medium diagonally hatched circle, with a small solid black pentagon with one point facing up centred inside it**

## Question 30

selects option B: the other four figures all have the same orientation (turned 270 degrees clockwise from upright) and each have a small shape in the top-right corner; this figure breaks the rule that the figures each have a small shape in the top-right corner (cao) **B1**

**Answer: B) A large solid black right-angled triangle (turned 270 degrees clockwise) and a small solid black triangle with one point facing up in the top-left (upright, the right-angled triangle has its right angle at the bottom left, longer side along the bottom)**

## Question 31

selects option D: the other four figures all have the same orientation (turned 90 degrees clockwise from upright); this figure breaks the rule that the figures all have the same orientation (turned 90 degrees clockwise from upright) (cao) **B1**

**Answer: D) A medium solid black semicircle with its curved side facing left**

## Question 32

selects option A: the other four figures are all unshaded (white) and each have a small shape in the top-left corner; this figure breaks the rule that the figures each have a small shape in the top-left corner (cao) **B1**

**Answer: A) A small unshaded (white) pentagon with one point facing up and a small solid black circle in the bottom-left**

## Question 33

selects option E: the other four figures are all pentagons and all have the same orientation (turned 315 degrees clockwise from upright); this figure breaks the rule that the figures all have the same orientation (turned 315 degrees clockwise from upright) (cao) **B1**

**Answer: E) A large dotted pentagon with one point facing up-right**

## Question 34

selects option B: the other four figures are all crosses; this figure breaks the rule that the figures are all crosses (cao) **B1**

**Answer: B) A large solid black diamond**

## Question 35

selects option E: the other four figures are all semicircles and all have the same orientation (turned 180 degrees clockwise from upright); this figure breaks the rule that the figures are all semicircles (cao) **B1**

**Answer: E) A small unshaded (white) pentagon with one point facing down**

## Question 36

selects option D: the other four figures are all medium and are all pentagons and each have a small square in one corner; this figure breaks the rule that the figures are all pentagons (cao) **B1**

**Answer: D) A medium dotted arrow pointing up and a small solid black square in the top-left**

## Question 37

selects option A: the other four figures each have a smaller copy of their own shape inside; this figure breaks the rule that the figures each have a smaller copy of their own shape inside (cao) **B1**

**Answer: A) A medium unshaded (white) square, with a small solid black pentagon with one point facing up centred inside it**

## Question 38

selects option C: the other four figures all have the same orientation (turned 135 degrees clockwise from upright) and are all mid-grey; this figure breaks the rule that the figures are all mid-grey (cao) **B1**

**Answer: C) A large cross-hatched arrow pointing down-right**

## Question 39

selects option B: the other four figures each have a smaller copy of their own shape inside; this figure breaks the rule that the figures each have a smaller copy of their own shape inside (cao) **B1**

**Answer: B) A large solid black circle, with a small unshaded (white) hexagon centred inside it (upright, the hexagon has its flat top and bottom)**

## Question 40

selects option D: the other four figures each have a smaller shape of a different kind inside and are all mid-grey and are all medium; this figure breaks the rule that the figures are all mid-grey (cao) **B1**

**Answer: D) A medium cross-hatched pentagon with one point facing up, with a small solid black circle centred inside it**

## Question 41

selects option C: the other four figures each have a small triangle in one corner and are all squares; this figure breaks the rule that the figures each have a small triangle in one corner (cao) **B1**

**Answer: C) A medium dotted square and a small solid black star with one point facing up in the top-right**

© Revision Library | revisionlibrary.co.uk

## Question 42

selects option E: the other four figures are all diagonally hatched; this figure breaks the rule that the figures are all diagonally hatched (cao) **B1**

**Answer: E) A medium dotted parallelogram (upright, the parallelogram has its long sides horizontal, slanting up to the right)**

## Question 43

selects option E: the other four figures are all diagonally hatched and each have a small shape in the top-right corner and are all large; this figure breaks the rule that the figures each have a small shape in the top-right corner (cao) **B1**

**Answer: E) A large diagonally hatched circle and a small solid black square in the bottom-right**

## Question 44

selects option C: the other four figures each have a small square in one corner and are all parallelograms; this figure breaks the rule that the figures each have a small square in one corner (cao) **B1**

**Answer: C) A large diagonally hatched parallelogram and a small solid black circle in the bottom-right (upright, the parallelogram has its long sides horizontal, slanting up to the right)**

## Question 45

selects option A: the other four figures are all squares; this figure breaks the rule that the figures are all squares (cao) **B1**

**Answer: A) A medium solid black parallelogram (upright, the parallelogram has its long sides horizontal, slanting up to the right)**

## Question 46

selects option E: the other four figures are all medium and each have a smaller shape of a different kind inside; this figure breaks the rule that the figures are all medium (cao) **B1**

**Answer: E) A small mid-grey pentagon with one point facing up, with a small solid black hexagon centred inside it (upright, the hexagon has its flat top and bottom)**

## Question 47

selects option B: the other four figures all have the same orientation (turned 90 degrees clockwise from upright); this figure breaks the rule that the figures all have the same orientation (turned 90 degrees clockwise from upright) (cao) **B1**

**Answer: B) A small solid black star with one point facing down-left**

## Question 48

selects option D: the other four figures are each made of 3 shapes and are all unshaded (white); this figure breaks the rule that the figures are all unshaded (white) (cao) **B1**

**Answer: D) Three small mid-grey circles side by side in a row**

## Question 49

selects option A: the only 6-sided shape among four 5-sided pentagons shown at different rotations (cao) **B1**

**Answer: A**

## Question 50

selects option C: the other four figures are all diagonally hatched and all have the same orientation (turned 135 degrees clockwise from upright); this figure breaks the rule that the figures are all diagonally hatched (cao) **B1**

**Answer: C) A small unshaded (white) right-angled triangle (turned 135 degrees clockwise) (upright, the right-angled triangle has its right angle at the bottom left, longer side along the bottom)**

## Question 51

selects option B: the other four figures each have a small triangle in one corner; this figure breaks the rule that the figures each have a small triangle in one corner (cao) **B1**

**Answer: B) A medium diagonally hatched flag and a small solid black star with one point facing up in the top-right (upright, the flag has its pole on the left, pennant pointing right from the top)**

## Question 52

selects option C: the other four figures each have a small circle in one corner and are all triangles and all have the same orientation (turned 270 degrees clockwise from upright); this figure breaks the rule that the figures each have a small circle in one corner (cao) **B1**

**Answer: C) A small unshaded (white) triangle with one point facing left and a small solid black triangle with one point facing up in the top-left**

## Question 53

selects option E: the other four figures are each made of 3 shapes; this figure breaks the rule that the figures are each made of 3 shapes (cao) **B1**

**Answer: E) Two small solid black arrows pointing up side by side in a row**

## Question 54

selects option D: the other four figures are all dotted and are all large; this figure breaks the rule that the figures are all dotted (cao) **B1**

**Answer: D) A large diagonally hatched heart with its point facing down**

## Question 55

selects option D: the other four figures all have the same orientation (turned 270 degrees clockwise from upright) and each have a small square in one corner; this figure breaks the rule that the figures all have the same orientation (turned 270 degrees clockwise from upright) (cao) **B1**

**Answer: D) A small solid black semicircle with its curved side facing right and a small solid black square in the top-left**

## Question 56

selects option C: the other four figures each have a small triangle in one corner and are all mid-grey and are all hearts; this figure breaks the rule that the figures are all hearts (cao) **B1**

**Answer: C) A medium mid-grey flag and a small solid black triangle with one point facing up in the bottom-left (upright, the flag has its pole on the left, pennant pointing right from the top)**

© Revision Library | revisionlibrary.co.uk

## Question 57

selects option E: the other four figures are each made of 2 shapes and are all unshaded (white); this figure breaks the rule that the figures are all unshaded (white) (cao) **B1**

**Answer: E) Two small mid-grey semicircles with their curved sides facing up side by side in a row**

## Question 58

selects option A: the other four figures are all flags; this figure breaks the rule that the figures are all flags (cao) **B1**

**Answer: A) A medium dotted semicircle with its curved side facing up**

## Question 59

selects option B: the other four figures each have a smaller copy of their own shape inside and are all squares; this figure breaks the rule that the figures each have a smaller copy of their own shape inside (cao) **B1**

**Answer: B) A large cross-hatched square, with a small solid black pentagon with one point facing up centred inside it**

## Question 60

selects option C: the other four figures are all small and all have the same orientation (turned 45 degrees clockwise from upright) and are all solid black; this figure breaks the rule that the figures are all solid black (cao) **B1**

**Answer: C) A small unshaded (white) triangle with one point facing up-right**

## Question 61

selects option E: the other four figures are all solid black and each have a smaller shape of a different kind inside; this figure breaks the rule that the figures each have a smaller shape of a different kind inside (cao) **B1**

**Answer: E) A small solid black square, with a small unshaded (white) square centred inside it**

## Question 62

selects option A: the other four figures are each made of 3 shapes; this figure breaks the rule that the figures are each made of 3 shapes (cao) **B1**

**Answer: A) Four small solid black triangles with one point facing up arranged in a block**

## Question 63

selects option D: the other four figures all have the same orientation (turned 270 degrees clockwise from upright) and are all medium and each have a small square in one corner; this figure breaks the rule that the figures each have a small square in one corner (cao) **B1**

**Answer: D) A medium unshaded (white) heart with its point facing right and a small solid black circle in the top-left**

## Question 64

selects option E: the other four figures all have the same orientation (turned 225 degrees clockwise from upright) and are all L-shapes; this figure breaks the rule that the figures are all L-shapes (cao) **B1**

**Answer: E) A medium mid-grey semicircle with its curved side facing down-left**

## Question 65

selects option B: the other four figures are all crescents and all have the same orientation (turned 90 degrees clockwise from upright); this figure breaks the rule that the figures are all crescents (cao) **B1**

**Answer: B) A large unshaded (white) flag (turned 90 degrees clockwise) (upright, the flag has its pole on the left, pennant pointing right from the top)**

## Question 66

selects option A: the other four figures all have the same orientation (turned 90 degrees clockwise from upright) and are all right-angled triangles and each have a small square in one corner; this figure breaks the rule that the figures all have the same orientation (turned 90 degrees clockwise from upright) (cao) **B1**

**Answer: A) A large unshaded (white) right-angled triangle (turned 180 degrees clockwise) and a small solid black square in the bottom-right (upright, the right-angled triangle has its right angle at the bottom left, longer side along the bottom)**

## Question 67

selects option A: the only figure with no line of symmetry (cao) **B1**

**Answer: A**

## Question 68

selects option D: the other four figures are all mid-grey; this figure breaks the rule that the figures are all mid-grey (cao) **B1**

**Answer: D) A medium diagonally hatched arrow pointing up**

## Question 69

selects option C: the other four figures are all mid-grey and each have a smaller copy of their own shape inside; this figure breaks the rule that the figures each have a smaller copy of their own shape inside (cao) **B1**

**Answer: C) A large mid-grey hexagon, with a small solid black square centred inside it (upright, the hexagon has its flat top and bottom)**

## Question 70

selects option B: the other four figures are all crosses and each have a small square in one corner and are all mid-grey; this figure breaks the rule that the figures each have a small square in one corner (cao) **B1**

**Answer: B) A large mid-grey cross and a small solid black triangle with one point facing up in the bottom-left**

## Question 71

selects option A: the other four figures are all cross-hatched and are all medium; this figure breaks the rule that the figures are all cross-hatched (cao) **B1**

**Answer: A) A medium diagonally hatched cross**

## Question 72

selects option E: the other four figures are all unshaded (white); this figure breaks the rule that the figures are all unshaded (white) (cao) **B1**

**Answer: E) A medium diagonally hatched heart with its point facing down**

© Revision Library | revisionlibrary.co.uk

## Question 73

selects option B: the other four figures each have a small shape in the top-left corner and are all solid black; this figure breaks the rule that the figures each have a small shape in the top-left corner (cao) **B1**

**Answer: B) A small solid black square and a small solid black square in the top-right**

## Question 74

selects option D: the other four figures each have a small shape in the bottom-right corner and are all unshaded (white) and are all small; this figure breaks the rule that the figures each have a small shape in the bottom-right corner (cao) **B1**

**Answer: D) A small unshaded (white) circle and a small solid black star with one point facing up in the bottom-left**

## Question 75

selects option A: the other four figures each have a smaller shape of a different kind inside and are all solid black; this figure breaks the rule that the figures each have a smaller shape of a different kind inside (cao) **B1**

**Answer: A) A medium solid black hexagon, with a small unshaded (white) hexagon centred inside it (upright, the hexagon has its flat top and bottom)**

## Question 76

selects option D: the only inner circle drawn at one third of the square's width instead of one half (cao) **B1**

**Answer: D**

## Question 77

selects option C: the other four figures are each made of 4 shapes; this figure breaks the rule that the figures are each made of 4 shapes (cao) **B1**

**Answer: C) Three small unshaded (white) circles side by side in a row**

## Question 78

selects option E: the other four figures each have a small star in one corner and are all small and all have the same orientation (turned 0 degrees clockwise from upright); this figure breaks the rule that the figures each have a small star in one corner (cao) **B1**

**Answer: E) A small unshaded (white) heart with its point facing down and a small solid black circle in the top-right**

## Question 79

selects option B: the other four figures are all unshaded (white) and each have a small square in one corner; this figure breaks the rule that the figures are all unshaded (white) (cao) **B1**

**Answer: B) A medium diagonally hatched semicircle with its curved side facing up and a small solid black square in the top-right**

## Question 80

selects option A: the other four figures all have the same orientation (turned 0 degrees clockwise from upright); this figure breaks the rule that the figures all have the same orientation (turned 0 degrees clockwise from upright) (cao) **B1**

**Answer: A) A small mid-grey crescent with its tips facing up-right**

## Question 81

selects option B: the only arrow pointing down while the others point up (cao) **B1**

**Answer: B**

## Question 82

selects option E: the only figure where the number of dots does not equal the number of sides minus 3 (cao) **B1**

**Answer: E**
