Total Marks

Name: _____ Date: ____ / ____ / _____

In each question you are given five words. Three of the five words share something in common: they might belong to the same group, hide a smaller word inside them, follow the same spelling rule, or sound like other words. The other two words do not fit that link. Read all five words carefully, work out what links three of them, then choose the option (A to E) that names the two words which do NOT belong. Study the worked example before you begin, then work through the questions in order.

Worked example. Here are five words: LION, TIGER, HAMMER, LEOPARD, CHISEL. Three of these five words share something in common. Which TWO words do NOT belong with the other three? **Answer: HAMMER and CHISEL.** LION, TIGER and LEOPARD are all big cats, so they form the group of three. HAMMER and CHISEL are tools, not animals, so they are the two words that do not belong with the other three.
